CHURCH IMPROVEMENT. - A great improvement has just been made in the chancel or sanctuary of St. Mary's Church. The floor which formerly ran from side to side, in the just come into possession of a fortune estimated semi-circular recess, at the same elevation as the altar, has been lowered to the general level, except in front of the altar, which is now approached by steps from three sides instead of one, and presents the appearance of standing on a platform. Doors, handsomely ornamented, have been cut in the sides of the recess, to afford ingress from the sacristes, or vesting rooms, and those formerly used, and the neighborhood of the designated spot, has Federal Relations of the Legislature, to which which faced the congregation, have been closed up, and the space, joined to that of the narrow niches formerly occupied by statues, has been used for the formation of new and wider niches in which neat side altars, on which are placed larger and handsomer statues, have been erected. The confessionals, also, have been much improved, and the communion rail has been enlarged, by bringing it round to the pilasters screen below it painted over in imitation of present upon the occasion. Many persons opinion that any act of the national government clouds which form a background for the splendid orient. The beautiful painting of the has been placed in a more eligible position, amidst those clouds, and the two small pictures and shipment of Cumberland coal, but unless the different parties to the controversy in Louis-Blessed Virgin, the finest thing in the church, which formerly hung on the pilasters, have been removed to positions over the new doors, where they look much better. Altogether, the come here this year. improvement is one which cannot fail to strike a visitor immediately on his entrance.

POLICE REPORT.—The following cases have been reported at police headquarters since yesterday afternoon.

Moses Love, Fred Graves and Betsy Brown, colored, for disorderly conduct, were fined and Sam Booth, for assaulting George Green,

both colored, was fined and discharged, as was also the complainant. A colored boy named Jim Robinson, for dis-

orderly conduct and swearing in a colored church, was fined and discharged.

Henry Willis, colored, for beating his wife, was discharged, as the warrant was withdrawn. Dutch Winters, for abusing Christiana Wells, both colored, was fined and discharged. The above cases were before the Mayor.

THE FISHERY.-The arrivals of fresh fish at Fishtown since yesterday, reported this moraing, were 250 bunches from The Gums, 480 from Plum Tree, 280 from Haislip's, and 250 from Deep Hole. They sold at prices ranging from 8 cents per bunch for yellow perch and eathsh, to 30 cts. for rock. Among them were a lew herring and two shad. 3.000 herring and a small jag of shad from the lower Machodock Creek, Potomac river, arrived in Baltimore yesterday, and sold, the former for \$21 per thousand, and the latter for \$30 per hundred. The tug boat Smith Pettit started down to day with the outfit and hands for the shore at Bryant's Point, which will be fished this year by Mr. Conrad Faunce. The Washington Republican of this morning in noticing the departure of fishermen from that city yesterday, says : "The first to start was Mr. Jacob D. Faunce, whose landing is at Freestone Point, about ninety miles down. Mesers. Knight & Gibson, who owe the Stony Point lauding about thirty miles down, and who haul their seine by steam, started their party yesterday, consisting of about seventy five men. This morning Capt. Coprad Faunce, one of the oldest and most successful of the Potomac fishermen, will sail for Bryant's Point, his landing, about twenty miles distant. He takes with him about sixty men."

St. Patrick's Day .- For a wonder the weather to-day was clear and bright, but the wind was cold, and blew a gale from the northwest, and made life in the streets anything but agreeable. Many residents of Irish birth or descent went to Washington to witness or participate in the celebration of the day there. The front of the hall of the Kuights of St. Patrick, Harlow's building, was decorated with the flag of the old Alexandria Hibernian Society, the U. S. flag, and the banner of the Commandery. Rev. Father Fitzpatrick, of Gonzaga College, Georgetown, will deliver an address upon the life of St. Patrick at St. Mary's Church to-night, which, among others, will be attended by the Catholic Beneficial Society and the Knights of St. Patrick, in regalia, who will occupy the centre pews, after which the Knights will have a banquet in their hall.

SUDDEN DEATH. - William Burch died sud denly at his residence, on the canal road near Green Springs, above Georgetown, yesterday morning. He jumped from the bed to dress himself, fell to the floor and died immediately of heart disease. He was fifty-nine years of age, and about thirty years of that time he passed in the Richmond, Va., Washington and Albany penitentiaries for various crimes. His alias was Bill Mortimer. He was well known

THE JAIL. - Dr. Gibson and Messrs. John West and George E. French, the committee appointed by the court for the purpose, made an inspection of the jail this morning, and found everything about it in excellent condition. The late improvements had been executed according to the contracts; the prison is cleanly and safe, the prisoners cared for properly, and the office and keeper's portion of the building all that could be expected.

THE STEAMER VIRGINIA. - The Maryland ferry boat, Virginia, which has been undergoing extensive repairs at the ship yard is almost ready to resume her trips, and will probably take her place on her line in about a week's time. Her boiler which has been enlarged and repaired will be put in her to-day. Her deck has been entirely renewed, and when completed she will be a more valuable boat than when she was first launched.

Flood in the Delaware. PORT JERVIS, March 16.-At six o'clock this morning a large shop whistle summoned the people to look out for the flood, information having been received that the ice had swept through every barrier above here and was coming rapidly with ten feet of water to this place. The ice left Pond Eddy, twelve mils west, at 5.15 a. m., and was expected here at seven. At seven the water was rising here very rapidly, and King street was inundated. A large charge of nitro glycerine was then exploded, and did great execution. The Delaware railroad bridge, three miles west of here, was swept away. The flood was coming with inconceivable force, and the inhabitants fled in confusion from the flats. At 8 a. m. King street was flooded and the gravest danger to the entire village was apprehended, but at 8.40 the gorge broke and the ice commenced floating down the river, and the water, which had inundated the lower portion of the place, began to fall; probably thirty blocks were inundated and some houses carried off. As far as heard from no lives were lost. The Barrett bridge was swept away. The railroad bridge from above came floating down with irresisti-

ble force, and swept the bridge away as if it had been a reed. The Suspension bridge, eight miles below, is now deemed.

PORT JERVIS, March 17.—About three hundred houses in Port Jervis, proper, between the railroad and the river, were more or less damaged by water, many of them filled to the second story. Owing to the ample warning given by the authorities no lives were lost. All the large shops of the Erie Railway Company had more or less water in them, but no great damage was done. The chief engineer of the Eric railway has started for the location of the Delaware bridge to arrange for some

temporary structure for crossing the river.
PORT JERVIS, March 17-12.30 p. m. -The scene at Germantown, on the river bank, beggars description. The ice is piled on the shore in many places thirty feet high, and in pieces weighing thirty tons. About twenty small houses and some shanties have been torn to pieces, and about two hundred there are filled with water to the second story. It is reported that one man was killed. His name has not yet been ascertained. Four of the five spans, are gone, leaving one span on the New York side. The piers are all unharmed. The bridge cost \$100,000, and was finished in the spring of 1872. Chief Engineer Chanute hopes to pass trains over on a temporary structure in a week or ten days. A ferry will be established to morrow for transferring passengers. The debris of two bridges caught fast on Van Noy's Island, three miles below, thus saving the tower of the Suspension bridge. The damage to the Barrett Bridge Company is about \$15, 000, and the other losses in the village are about \$20,000 more. The river is now going down, and the danger is over. About twentyfive small frame buildings nearest the river, in Port Jervis, are totally wrecked.

Waterspouts and Hail Storms.

NEW YORK, March 17.-A Nashville dispatch says: A waterspout which fell at Fayetteville on Sunday evening, caused an immense overflow at Norris Creek, which swept away rails, logs, furniture, hogs, cattle, sheep, and houses. A small village was suddenly and completely inundated. The damage is estimated at \$100,000. The waterspout continued for about half an hour. As the hail fell it congealed into lumps as large as nail kegs

Another waterspout fell near Lynchburg carrying away two distilleries with an immense amount of rails and many out-houses. The B. Ried at Brentsville, will, in consequence of fall of hail stones killed the poultry; the hail looked like a mass of ice. Hundreds of cattle were drowned.

The Tennessee river at Johnsonville, is higher than it was in 1867. The stream is sweeping over the iron bridge at Nashville, on the Northwestern railroad. Johnsonville is completely inundated. The heavy storms of Sunday night did immense damage.

St. Patrick's Day.

PHILADELPHIA, March 17.—The Irish Literary, Beneficial and Temperance Societies assembled on Broad street early this morning with music and banners, and after several hours delay in forming, the procession line commenced its march for the celebration of St. Patrick's Day. The Temperance Division was so immense that it was divided into eight sections. The National Division was composed of several military companies and gallowglasses. It is estimated that over 10,000 persons are in the procession, including a great number of boys. One band styled "Father Matthew Cadets, is over 3,000 strong. The display of regalia and banners rendered the procession very attractive and spectators crowd all the streets through which it passes. The weather was fortunately clear and pleasant though high wind caused the banner bearers much trouble.

Stabbing on Shipboard.

BALTIMORE, March 17. - Last evening three sailors on the Italian bark Guiseppe Emmanulle, which arrived in this port yesterday, and is lying at Lower Canton, were permitted ashore. Returning on shipboard about twelve o'clock, all mad from drink, they rushed with drawn knives on B. N. Gray, custom house officer in charge of the vessel, who, to save his life, took refuge on an adjoining ship. The drunken sailors then made an assault on the crew on deck, during which Francisco Tomberias, one of the drunken men, plunged a knife into the breast of his brother, also a sailor on the Emmanulle, inflicting a mortal wound. The fracas was only ended by a squad of police who were sent on board.

PETERSBURG, VA.

In offering this FERTILIZER to the Agricultural Community a Second Season we do so with the utmost confidence, feeling satisfied that the high opinion we formed and expressed last season, based on its Chemical Constituents, has been most satisfactorily borne out by the test by which all Fertilizers must be judged—that of the Plantati in.

Last season, owing to the lateness at which we commenced importing, we were forced to put our Guano on the market at once, but now having continued our importations during the summer and fall, and having large and well ventilated Warehouses in Petersburg and City Point, we are

enabled to put our Guano on the market in a condition, as to dryness and freedom from lumps, enabled to put our Guano on the market in a condition, as to dryness and freedom from lumps, equal to any manufactured Fertilizer.

We solicit a careful perusal of our Circular, containing the certificates sent us, and which can be had on application at this OFFICE, or from any of our AGENTS. Having nothing to conceal, we made an innovation on established usage, by publishing those letters received unfavorable to our Guano; but careful inquiry in many cases proves that the cause of its failure was not owing to any fault in the Guano, but to those far beyond our centrol. We have frequently heard the same complaints of its kindred Fertilizer, Peruvian Guano, but the concurrent testimony of well known

Farmers and Planters from Maryland to the extreme Western counties of North Carolina, justify us in claiming a place for our Fertilizer Superior to many, and Second to None.
